PORTFOLIO

kingzoje.github.io

PROFESSIONAL EXPERIENCE

Lead Game Developer

Shacks Evolution Studios | 2022 – 2025

- Led the development of casino and real money games (RMG), working with a team of developers and designers.
- Implemented complex and fair random number generators (RNG), in compliance with industry standards.
- Integrated REST APIs and WebSockets for backend communications and multiplayer functionality.
- Managed project timelines and resources, using project management tools like Jira and Clickup to track progress and ensure successful project delivery.

Freelancer

Upwork | 2021 – Present

- Worked remotely with various clients to develop their ideas into topnotch applications.
- Managed project timelines, resources, and deliverables to consistently meet deadlines and quality standards.
- Explored various tech stack to solve client-specific issues and deliver beyond the expectation of the client.

Independent Software Developer

Zoje Virtual Studios | 2019 – Present

- Designed, developed and published apps for various platforms utilizing various tech stack.
- Implemented efficient game mechanics, UI&UX, 2D & 3D art, sound and visual effects, and animations to create engaging and immersive games.
- Conducted market research and utilized feedback to refine and improve apps design and functionality.
